I authorize Ocean Beach Marine Centers to charge my credit card account upon completion of the requested work.

Reference

*Services must be scheduled at least 5 weeks in advance to ensure every customer gets the attention and service that is rightfully deserved.

*Due to customer volume, spring launch dates will be scheduled on a first come first serve basis.

1. Insert the approximate date you prefer to be launched. If this week is unavailable, you will be notified and scheduled for the next available week. If you must change a scheduled date for launching, there may be a fee for re-locating your boat. We will do our best to accommodate you.

2. Temporary slip tie is available. Mooring lines must be in boat 7 days prior to launch date. If lines are missing or in questionable condition, new lines will be installed and billed to the customer. Owner is responsible for reviewing and securing lines within 24 hours of launch.

3. If OBMC does not have your ignition keys, you must drop off ignition keys two weeks prior to launch.

4. We will not commission any engine not winterized by Ocean Beach Marine Centers. Boat must be operable or haul out / towing fee will apply.

5. Bottom painting, lower unit and outdrive painting is only permitted by OBMC employees, unless otherwise approved by management.

6. It is the responsibility of the boat owner to inform OBMC in writing if the boat was previously painted with micron bottom paint. Micron paint must be used again since it is the only paint that will adhere to previously painted Micron bottoms.

7. Commissioning the water system consists of adding water to the tank, testing the system and inspecting for leaks.

8. Boat bottoms will be painted the same color as the existing color with Petit or Interlux Bottom Kote. If you would like a different color or a special paint (which may be an additional charge), please indicate in the space provided under bottom paint on the front page.

9. Tune up service includes new spark plugs, new distributor cap and rotor (where applicable) and overall inspections / adjustment of ignition, fuel, cable and cooling systems. A sea trial is included with tune up service if boat is scheduled for spring launch. (Parts not included)
